

2020-2021 Parents' Additional Expense Form

Directions: The Expected Family Contribution (EFC) was determined from the income and asset information provided on the FAFSA. Since parents may experience additional expenses which could impact their ability to contribute to their child's education, we may be able to make adjustments to the EFC calculation and a re-evaluation of your student's financial aid could occur if approved. Please select from one of the following options if you have expenses that we may not have included, or are of an extraordinary nature, and submit the requested documentation to be considered for review. Please note that changes resulting from this review do not guarantee an increase in aid.
