

# UTSA SCHOLARSHIPS

Students can find information on scholarships that are available to them at [www.utsa.edu/scholarships](http://www.utsa.edu/scholarships).

## Applying for Scholarships

The Financial Aid and Scholarships Office administers a variety of scholarships through the UTSA Scholarship Hub at [onestop.utsa.edu/hub](http://onestop.utsa.edu/hub). To apply for these scholarships, incoming and continuing students must first submit the Scholarship Hub's General Application each year by **January 15**.

## Departmental Scholarships

Departmental Scholarships are offered by the individual departments and colleges on campus. Eligibility criteria and application deadlines vary per department and can be reviewed on the Scholarship Hub.

*Note: Departmental Scholarships are being continuously added. Have your student check the Hub periodically so you don't miss out on an opportunity.*

## Scholarship Databases

We encourage students to create a profile on each scholarship database. Make sure to use a separate email account for these databases, as they will send you several potential scholarship options that you will want to research. Eligibility and deadlines will vary by donor.

## Outside Scholarships

Outside Scholarships are available from public and private resources. Students research these scholarships independently but scholarship websites and approved databases are available on our scholarships website to help get you started. Eligibility criteria and application deadlines vary per donor.
